It still doesn't work.**

**But nothing to feed
livestock in the drought**

Labor and the Liberals spent a massive fifty-five thousand million dollars on the NBN. At the same time, there has been next to nothing from the government for farmers to feed their livestock during the crippling drought crisis. We will back Australian farmers by introducing the **Australia Fund** to support our primary producers in times of natural disaster or hardship.

**United Australia Party: A special
drought relief fund for farmers**
